

# Gastonia Readiness Center Parking Lot

EZRoll™ Gravel Paver with geotextile fabric backing.

## Fast Facts

### PRODUCT & QUANTITY

EZ Roll™ Gravel Paver 16,000 sq. ft.  
Infill: 89 Clean Stone

### ADDRESS

2100 Robinwood Road  
Gastonia, NC 28054

### APPLICATION

Parking, Emergency Access Lane,  
Support Military Vehicles

### INSTALLATION DATE

August 2010

### OWNER

United States Government

### CONTRACTOR

John E. Jenkins Contracting

## Project Information

Since 2006 when the Department of the Army began the first of the Army Force Modularity changes, many of the Army's facilities have undergone a restructuring and/or upgrade. In the case of the Gastonia Readiness Center, the upgrade consisted of the addition of two separate buildings for soldiers and equipment and a new parking lot for forty vehicles.

The requirements for the lot were that it be able to provide daily-

use parking but also function as an emergency access lane. In addition to this, it was critical that the lot be able to support National Guard Military Vehicles that would also be parking on or driving through the facility.

EZ-Roll Gravel Paver was selected for its permeable properties, ability to support emergency vehicles, and overall aesthetics.

Above Right: Installed Paver. Above: Installation 1 year later, taken July 2011.
