

# Newark Street Dog Park Pedestrian Path

EZRoll™ Gravel Paver with geotextile fabric backing.

## Fast Facts

### PRODUCT & QUANTITY

EZ Roll™ Gravel Paver 5,400 sq. ft.

### ADDRESS

39th and Newark Streets, NW,  
Washington D.C.

### APPLICATION

Pedestrian Path

### INSTALLATION DATE

September 7, 2010

### OWNER

District of Columbia

### CONTRACTOR

Robert F. Patton of Turf Center Lawns

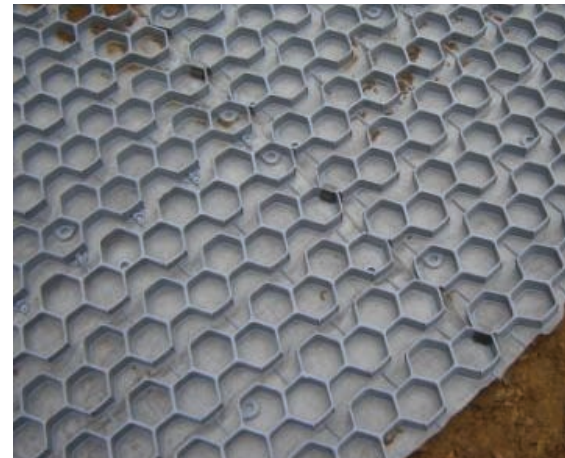

## Project Information

With tennis courts, a dog park, water gardens, and pedestrian paths located in the heart of Washington D.C., The Newark Street Dog Park has been a popular meeting place for many of the community's residents. The park spans over 10,000 square feet in two enclosed areas, and was recently selected for revitalization by Mayor Adrian M. Fenty.

Regarding the park design, the Mayor had some very specific requirements - it was critical that the park not only utilize sustainable features, but also that it be compliant with the Americans with Disabilities Act (ADA), so that all residents would be able to enjoy the park equally. With these requirements in mind, EZ Roll Gravel Paver was selected for the dog park, ramps, and pedestrian pathways. The pavers were chosen as they not only offer an aesthetically pleasing and natural appearance but are made from 100% recycled content. In addition to this, using pavers in designated areas of the park would allow the ground to drain quickly and provide traction for pedestrians in the event of rain.

Once this decision had been made, the existing impervious asphalt was ripped up and replaced with the pervious pavers. Additional green amenities offered by the park include solar flood lights and a rain garden with native plants and bio-retentive drain pipe.

In a press release from the Mayor's office, Department of Parks and Recreation (DPR) Director Jesús Aguirre stated *"We thank the community members for their patience as we worked diligently to build this impressive park that meets their needs. This is a fantastic park for all to use and we look forward to everyone enjoying it for years to come."*
