	Agrifim	Rain Bird	Advantages of Agrifim vs. Rain Bird
Universal Fits all 1/2" Drip tubing	✓		<ul style="list-style-type: none"> Agrifim Smart Loc fits 16, 17 and 18mm (0.620" – 0.710" OD) PE tubing Rain Bird Easy fit only fits (0.630" – 0.669" OD) PE tubing
Re-useable	✓		<ul style="list-style-type: none"> Tubing can be inserted and removed without damage to the Smart loc fitting Rain Bird Easy fit can only be used one time
All fittings are complete functioning units	✓		<ul style="list-style-type: none"> Agrifim Smart Loc fittings are complete functioning individual units Rain Bird Easy fit requires a series of adapters that have to be snapped into main fittings creating permanent connections
Secure leak free connections every time	✓		<ul style="list-style-type: none"> Agrifim Smart loc progressive compression design ensures leak free connections every time Rain Bird Easy fit design can lead to improper installation and leaks
Fast and easy to install	✓		<ul style="list-style-type: none"> Agrifim Smart loc design makes them quick and easy to install Rain Bird fitting is limited in tubing size and adapters make them complicated to install

INSTALLATION

1. Expose the tapered end of the adaptor by rotating the collar all the way up the thread.
2. Using force, insert tubing onto tapered end.
3. Twist collar over the tubing to secure in place.
