

## Save Time and Effort on Your Channel Drain Projects

The Dura Slope Channel Drain Kit features the best-in-class Dura Slope Channel Drain. The modular drain is designed for easier handling and installation, and offers a lightweight yet durable alternative to concrete drains.

**GRAB AND GO:** Kit contains components for install—no need to hunt down parts or make multiple trips to the distributor

**CONVENIENT:** Pre-packaged solution prevents having loose parts in the truck or parts getting lost at the jobsite

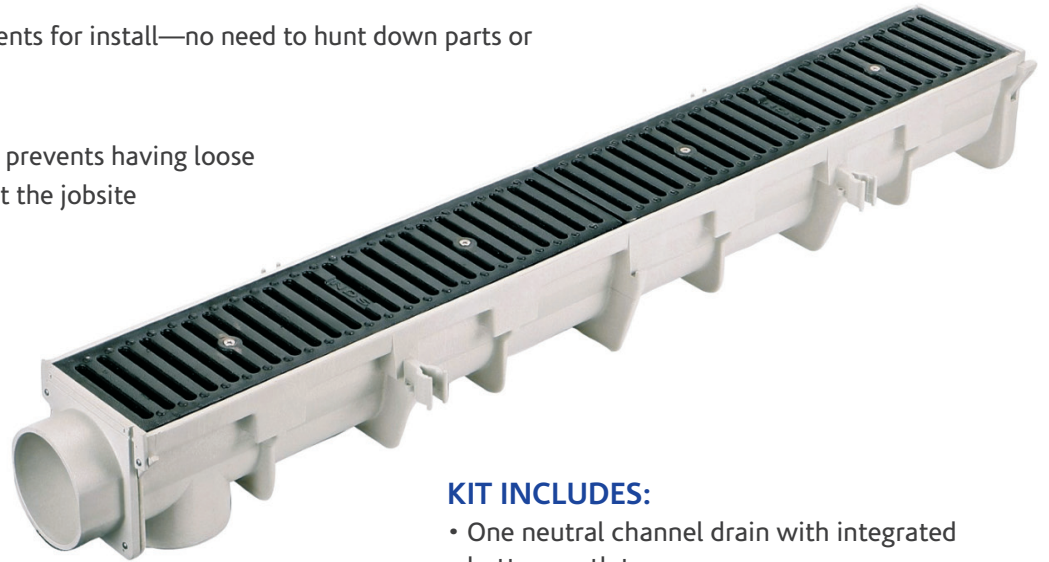

**VERSATILE:** This starter kit can be used on its own or as part of the Dura Slope channel drain system

### GRATES ARE NDS CLASS C LOAD RATED WHEN PROPERLY INSTALLED

Requires DS-200H frame to achieve H-20 and NDS Class D load rating

ADA Compliant

### KIT INCLUDES:

- One neutral channel drain with integrated bottom outlet
  - Bottom outlet directly connects to 4 in. Sch. 40 fitting; adapter (DS-126) required to connect to 4 in. sewer & drain pipe
- 4 ProFit™ grate locks
- 2 ductile iron grates and 4 stainless steel grate screws
- 1 end outlet
- 1 end cap and 4 screws
