PREVENTS CLOGS**

Downspout Defender – Drainage System Shield

An easy upgrade to make any downspout drainage system more effective.

Self-Cleaning Grate Deflects Debris Before it Enters the System

- Sheds leaves, needles, twigs, nuts & seeds
- Prevents system clogs downstream

Protect Property & Structures with a Downspout Drainage System

- Eliminates standing water
- Moves water away from the foundation where it can do the most damage

Patent Pending Design Captures More Water than Standard Grates

- Eliminates splashing back onto property walls
- Captures water that overshoots traditional flat grates

1200DSG

NEW! Downspout Defender – Drainage System Shield

Installing catch basins under downspouts is a best practice for managing stormwater and protecting property. Downspout drainage systems move water away from structures where it can do damage. The Downspout Defender makes a drainage system even more effective by capturing more water and deflecting debris to keep the system running clean.

Prevents splashing on wall or over grate

Self-cleaning grate eliminates debris that can clog your system
