

# EZ ROLL™ GRASSROAD PAVERS

**EZ Roll™ Grassroad Pavers®** The EZ Roll Grassroad Paver is a plastic grass paver that allows light to heavy vehicular traffic to drive over turf areas. It prevents soil compaction, allowing healthy root growth where grass can thrive. The paver is used to stabilize soil and allows turf to grow in areas that would traditionally have impervious hardscaping installed. The EZ Roll can be used as a BMP for NPDES Phase II compliance. This engineer-designed grasspaver comes in pre-assembled rolls for easy installation.

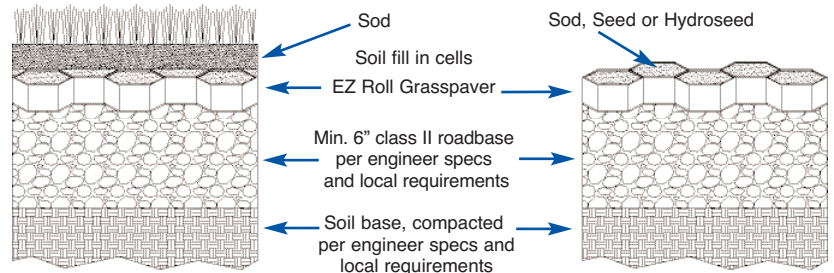

**Specifications:** The NDS EZ Roll™ Grassroad Paver™ is a honeycombed rolled grass paver that is comprised of 24" x 24" panels. The product is made of up to 100% recycled polyolefin material with UV inhibitors. Panels are available in pre-assembled rolls, and multiple panels and rolls easily connect together with a series of female to male locking joints. Paver must have an ultimate compression load rating of 52,600 psf "empty."

Part No.	Description	Color	Pkg. Qty. Pallet Qty.	Weight (Per Roll)	Product Class
EZ4X24	EZ Roll Grassroad Paver, 4' x 24', 96 sq. ft. total	Black	6	55.44 lbs	55GP
EZ4X150	EZ Roll Grassroad Paver, 4' x 150', 600 sq. ft. total	Black	1	346.5 lbs	55GP

## PLANTING PROFILE/SOIL LEVELS

## RECOMMENDED INSTALLATIONS FOR NDS GRASSROAD PAVERS

Tufftrack: TT-24	EZ Roll: EZ4X24, EZ4X150
<ul style="list-style-type: none"> <li>• Frequent usage</li> <li>• Heavy duty vehicles</li> <li>• Heavy usage where vehicle tires will be turned frequently</li> <li>• Can be used for light applications without a road base</li> </ul>	<ul style="list-style-type: none"> <li>• Emergency access roads that do not have frequent usage</li> <li>• OK for heavy vehicles</li> <li>• Must always be installed on a road base, even with light applications.</li> </ul>

## RECOMMENDED APPLICATIONS FOR NDS GRASSROAD PAVERS

Light to moderate traffic loads, including:	Heavy Traffic Loads, including:	Non-load applications:
<ul style="list-style-type: none"> <li>• Golf Cart Paths</li> <li>• Service Roads</li> <li>• Jogging Tracks</li> <li>• Bike Paths</li> <li>• RV and Boat Access and Parking</li> <li>• Truck &amp; cart wash-down areas</li> </ul>	<ul style="list-style-type: none"> <li>• Residential Driveways</li> <li>• Parking Lots</li> <li>• Overflow Parking Area</li> <li>• Roadway Shoulders</li> <li>• Fire lanes</li> <li>• Emergency vehicle access roads</li> <li>• Service vehicle utility roads</li> <li>• Truck maintenance and equipment yards</li> <li>• Construction entrance soil stabilization</li> </ul>	<ul style="list-style-type: none"> <li>• Erosion control on slopes</li> <li>• Erosion control in swale</li> </ul>
