Fast Facts

PRODUCT & QUANTITY

EZ Roll™ Gravel Paver 13,000 sq. ft.

ADDRESS

Highway 17 North – Hobcaw Barony
Georgetown, SC 29440

APPLICATION

Primary Parking

INSTALLATION DATE

April 2009

OWNER

Belle W. Baruch Foundation,
Univ. of South Carolina Arts & Sciences

DESIGN FIRM

Seamon Whiteside Associates

CONTRACTOR

D&S Siteworks, Inc.

Project Information

The Belle W. Baruch Institute for Marine and Coastal Sciences at the University of South Carolina runs a number of programs and labs for its students and researchers of marine and coastal sciences. To provide adequate parking for their field labs and services, faculty decided to add a 13,000 sq. ft. lot for primary parking.

The main concern for this project was that the design would

integrate into the pristine natural surroundings adjacent to the North Inlet of Winyah Bay. EZ Roll Gravel Paver proved to be the ideal solution by offering a strong, durable base to support traffic while providing a more visually appealing look than traditional asphalt.

The project was designed for LEED Certification, and is currently LEED Registered while undergoing review for appropriate level of certification.

EZ Roll Gravel Paver unrolled at the jobsite.

The finished lot with gravel fill is utilized daily as one of the primary parking zones at the institute.
