

Built to Protect. Engineered to Endure.

When it comes to protecting critical infrastructure in FTTH (fiber to the home) installations, the right enclosure makes all the difference.

Our 17X30X24 in. Pro-Spec® telecom box weighs 54 lbs. It combines reliable performance and rugged durability, all in a user-friendly and spacious design. This telecom box is tough, tested, and built to protect.

Performance that works as hard as you do

- Safe and secure environment for network equipment
- Overlapping cover blocks dirt and debris
- Slip-resistant cover with TELECOM marking

Smart design meets rugged reliability

- Structural support ribs on box and cover
- Light Duty rated per ANSI/SCTE 77
- Starter hole for marker disc
- Made of HDPE treated with UV inhibitors

Engineered with convenience and security in mind

- Easily remove cover with finger slots on corners
- Patented Universal Locking Mechanism (ULM) offers flexibility in securing cover to box
- Includes bolts to deter theft and tampering
