

Fix Broken PVC Irrigation and Plumbing Pipe Fast

The expandable repair coupling is engineered to effectively stop leaks and comes packed with features to make pipe repairs easier.

NDS Pro-Span® repair coupling is the preferred choice of irrigation, plumbing, and drainage contractors. Every NDS product is engineered for performance, durability, and ease of installation. No product is added to our line without meeting extensive testing and research requirements.

Installation

- Designed to provide smooth extension for easier adjustment compared to other brands in the market
- Length is adjustable and locks in place to save time during installation
- Patented Grip-Lock technology prevents the piston from spinning when inserting onto pipe
- Easy-Grip handle provides a firm grip for wet and muddy hands
- Spin weld cap design makes it easier to install using only two components
- True-Cut feature automatically positions the piston seals and eliminates potential joint-separation stress
- Install requirements are molded onto Pro-Span expansion repair coupling; instructions included

Durability

- At 200 PSI, Pro-Span repair coupling is strong enough to utilize in most systems
- Made of polyvinyl chloride (PVC)
- NSF certified
- 1-year product defect warranty

Performance

- Pro-Span piston and space between O-ring & body are loose when relaxed to help adjust coupling to a functional length
- Dual O-ring safety design stops the leak before it starts

Part No.	Description	Compressed Length	Max Operation Length	Specifications
118-05	Pro-Span® 1/2 in. Expansion Repair Coupling	5-1/2 in.	7-1/2 in.	Made of PVC 118-05 Thru 25: NSF 61/UPC/ASTM Rated @ 200 PSI Static Pressure @ 72°F 118-60QF: NSF 61 Rated @ 200 PSI Static Pressure @ 72°F
118-07	Pro-Span® 3/4 in. Expansion Repair Coupling	5-11/16 in.	7-7/8 in.
